DETAILED ACTION

Amendment received 15 November 2010 is acknowledged. Claims 1-10, 12-17, and 19-23 are pending and have been considered as follows.

Allowable Subject Matter

1. Claim 1-10, 12-17, and 19-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicants argue that the language "...a first sensor arrangement located more than 0.5 meters behind the front of the vehicle..." in Claim 1 should be interpreted to include only those sensor arrangements in which all sensor elements in the first sensor arrangement are located more than 0.5 meters behind the front of the vehicle (page 7-8). The sensors (37, 38) in Hosoya et al. (JP7246908A or JP3105391B2; see attached machine translation) that would be analogous to the claimed "first sensor arrangement" with respect to functionality include at least one sensor element (38) that is not located more than 0.5 meters behind the front of the vehicle (Figs 7, 9; paragraph 0023). In Hosoya, the front sensor element (38) requires a frontal location to emit signals at a sufficient angle such that tall pedestrians can be distinguished from shorter pedestrians (Figs. 7, 9; paragraph 0023). As such, Hosoya does not disclose the concept in the language at issue under the Applicants' proposed interpretation. Therefore, Claim 1 is not anticipated by the cited reference if the "first sensor arrangement" at issue is interpreted to exclude sensor elements that are less than 0.5 meters behind the front of the vehicle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicants' arguments filed 15 November 2010, with respect to the location of sensor elements within the "first sensor arrangement" in Claim 1 have been fully considered and are persuasive. The rejections of the Claims are therefore withdrawn.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Inada et al. (US Patent No. 5,183,288) and Miyasaka et al. (US Pub. No. 2002/0014761) disclose vehicle safety devices.
